DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Figure 2, claims 8-15, 37-44, and 66-73 in the reply filed on 8 is acknowledged.
2. Claims 1-7, 16-36, 45-65, and 74-87 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected embodiment, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 6/25/03.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 8-15, 37-44, and 66-73 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yanagihara (5,374,958) in view of Reininger et al (5,426,463) for the same reasons as set forth in Section 5 of the last office action, dated 4/5/04.

Response to Arguments

5. Applicant's arguments filed 6/24/04 have been fully considered but they are not persuasive. Applicant asserts on pages 2-6 of the Remarks that there is nothing in Reininger et al that refers to different QPs for luma and chroma. However, Figure 3 of Reininger et al illustrates that variable QP values for one or both of the color channels.

That is, depending on the amount of coded data, a new quantization factor 68 may be selected 27 to provide a finer quantization resolution 14 in the color channels.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
